Łukasz Głowacz
SOFTWARE DEVELOPER

linkedin.com/in/lukas-glowacz github.com/lukaszglowacz contact@lukaszglowacz.com

Software Developer with 2+ years of commercial experience, specializing in full-stack web applications using **Python (Django REST Framework)** and **TypeScript (React)**.

Experienced in building production-ready systems end-to-end, including authentication, role-based access control, REST APIs, third-party integrations, and cloud deployments.

Delivered multiple commercial projects for international clients via **Upwork and Freelancer**, working remotely and independently from requirements analysis to deployment.

</> TECHNICAL SKILLS

TypeScript · JavaScript · Python · Node.js · Express · Fastify · Django · Flask · Django REST Framework · REST API

PostgreSQL · Prisma · RBAC · JWT Authentication · Data Modeling · Angular · React · RxJS · HTML5 · CSS3 · Jest

Supertest · Playwright · Pytest · Django TestCase · Docker · GitHub Actions · Git · ESLint · Prettier · Postman

AWS · GCP · Heroku · DO · Figma · OpenAPI · REST Best Practices

EXPERIENCE

Freelance Software Developer
Upwork, Freelancer - Remote
Sep 2023 - Present

PROJECTS

Gurudo Geo   GitHub Repo (frontend)   GitHub Repo (backend)
React, TypeScript, Python, Django REST Framework, PostgreSQL

JWT authentication · role-based access control (employer/employee) · Axios API client with interceptors · automatic token refresh
REST API · geolocation validation (100m radius) · Stripe subscriptions & webhooks · per-seat billing · Klaviyo event integrations
React Router · React Bootstrap · Google Maps JavaScript API · PDF reports · Docker · DigitalOcean

Personal Expense Tracker   GitHub Repo
Python, Google Sheets API, Heroku

Command-line application · structured CLI workflows · input validation · expense categorization (15 categories)
date & numeric validation · year/month analytics · comparisons (month vs month, year vs year)
Google Sheets read/write synchronization · service account authentication · environment-based secrets · PEP8 compliant code
manual testing · Heroku deployment

Norton Inspiration   GitHub Repo
Python, Django, PostgreSQL, Bootstrap

Full-stack web application · user authentication & authorization · CRUD posts and comments
admin-moderated content workflow · likes & comments system · Django ORM data modeling · Cloudinary media storage
responsive UI · form validation · Django admin panel · email integration (Mailtrap) · automated tests (Django TestCase)
Heroku deployment
